

External evidence context for the four focal claims

Independent datasets provide broad or related-subtype context; none establishes exact-subtype replication.

Focal claim	Primary GSE240016	GSE223049 broad context	E-MTAB-8560 related TEC context	Exact subtype
C002 capsFB Lox	Lower	Supportive broad context	Unavailable / not eligible	Not established
C003 medFB Loxl1	Higher	Opposite broad context	Unavailable / not eligible	Not established
C004 medFB Loxl2	Lower	Supportive broad context	Unavailable / not eligible	Not established
C005 mTEC1 Loxl2	Lower	Supportive broad context	Mixed related-subtype context	Not established

GSE231906 DETECTION_CONTEXT_ONLY

Shown as a scope annotation only; it is excluded from mouse age-effect evidence.
